Care Improvement Plus PPO Plan Provider Directory

This directory provides a list of Care Improvement Plus's network providers.

This directory is for **Iowa**.

This directory is current as of September 23rd 2011. Some network providers may have been added or removed from our network after this directory was printed. We do not guarantee that each provider is still accepting new members. To get the most up-to-date information about Care Improvement Plus's network providers in your area, you can visit www.careimprovementplus.com or call our Member Service Department at 1-800-204-1002, 7 days-a-week, from 8:00 am to 8:00 pm. TTY users should call 711.

Care Improvement Plus is a Medicare Advantage organization with a Medicare contract.

This information is available for free in other languages. Please contact our Member Service number at 1-800-204-1002 for additional information.

esta información está disponible para libre en otros idiomas. Contacte por favor nuestro número de Servicio de Miembro en 1-800-204-1002 para la información adicional.

This document may be available in an alternate format such as Braille, larger print or audio. Please contact our Member Service number at 1-800-204-1002 for additional information.

Care Improvement Plus Table of Contents

INDEX: BY STATE CITY & GROUP

..... ccxvii

Section 1 – Introduction

This directory provides a list of Care Improvement Plus’s network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

Care Improvement Plus has a network of doctors, specialists, hospitals and other health care providers. **However, we are an open access network, which means in addition to the providers listed in this directory, our members may also use any Medicare provider who will accept payment from Care Improvement Plus, with no referrals required for Medicare-covered services.**

Your Prietary Care Physician/Provider (PCP) is the doctor who manages your general health care, meets state requirements, and is trained to give you basic medical care.

As a member of Care Improvement Plus, you are encouraged to select a PCP. You may select your PCP from within our Plan network, or you may select an out-of-network provider as your PCP; however the provider must accept Medicare, and must also be willing to accept payment from our Plan. If you don’t have a PCP or if you wish to find a new one, you may call Member Services, and they will assist you in finding one. For the most current listing of Plan providers, you can visit www.careimprovementplus.com or contact Member Services.

You may change your PCP for any reason, at any time. It is not necessary to notify the plan; however, if you want us to update your membership record, you may contact Member Services and we will update your information.

The “network providers” listed in this directory have agreed to provide you with your healthcare, vision and dental coverage. This directory has been created for you based on your permanent mailing address. You may go to any of our network providers listed in this directory or for a complete list of network providers please visit our website at www.careimprovementplus.com or call Member Services at 1-800-204-1002.

If you have been going to one network provider, you are not required to continue going to that same provider. In some cases, you may get covered services from non-network providers. Care Improvement Plus is has an open access network; however, some services may require authorization. Hospital admissions, Skilled Nursing Facility (SNF), LTAC, Home Health, select Durable Medical Equipment (DME), and certain Part B drugs administered in a provider’s office may require authorization. For a complete list and detailed information on the services which require authorization, please see your Evidence of Coverage. If you have been going to one network provider, you are not required to continue going to that same provider. In some cases, you may get covered services from non-network providers that do not have a signed contract with our plan, so long as they agree to accept our terms and conditions of payment, as described at section 1.2 of Chapter 3 in your Evidence of Coverage.

It is important to remember we are an open access network, which means in addition to the providers listed in this directory, our members may also use any Medicare provider who

will accept payment from our Plan with no referrals required for Medicare-covered services.

How to get care from out-of-network providers?

As a member of our plan, you can choose to receive care from out-of-network providers. Our plan will cover services from either in-network or out-of-network providers, as long as the services are covered benefits and are medically necessary. However, **if you use an out-of-network provider, your share of the costs for your covered services may be higher.** Here are other important things to know about using out-of-network providers:

- You can get your care from an out-of-network provider; however, that provider must participate in Medicare. We cannot pay a provider who has decided not to participate in Medicare. If you receive care from a provider that does not participate in Medicare, you will be responsible for the full cost of the services you receive. Check with your provider before receiving services to confirm that they have not opted out of Medicare.
- You don't need to get a referral or prior authorization when you get care from out-of-network providers. However, before getting services from out-of-network providers you may want to call Member Services to tell us you are going to use an out-of-network provider and to confirm that the services you are getting are covered and are medically necessary. This is important because:
 - If we later determine that the services are not covered or were not medically necessary, we may deny coverage and you will be responsible for the entire cost. If we say we will not cover your services, you have the right to appeal our decision not to cover your care. See Chapter 9 of your Evidence of Coverage to learn how to make an appeal.
- Because our plan is a Regional Preferred Provider Organization, if no contracted network provider is readily available you can access care at in-network cost-sharing from an out-of-network provider. Call Member Services to let us know you need to see an out-of-network provider, or to get help finding an out-of-network provider.
- It is best to ask an out-of-network provider to bill the plan first. But, if you have already paid for the covered services, we will reimburse you for our share of the cost for covered services. Or if an out-of-network provider sends you a bill that you think we should pay, you can send it to us for payment. See Chapter 7 of your Evidence of Coverage for information about what to do if you receive a bill or if you need to ask for reimbursement.
- If you are using an out-of-network provider for emergency care, urgently needed care, or out-of-area dialysis, you may not have to pay a higher cost-sharing amount.

Getting care if you have a medical emergency or an urgent need for care

What is a “medical emergency” and what should you do if you have one?

When you have a “medical emergency,” you believe that your health is in serious danger. A medical emergency can include severe pain, a bad injury, a sudden illness, or a medical condition that is quickly getting much worse.

If you have a medical emergency:

- **Get help as quickly as possible.** Call 911 for help or go to the nearest emergency room, hospital, or urgent care center. Call for an ambulance if you need it. You do *not* need to get approval or a referral first from your PCP.
- **As soon as possible, make sure that our plan has been told about your emergency.** We need to follow up on your emergency care. You or someone else should call to tell us about your emergency care, usually within 48 hours. Please call our Utilization Management department at 1-888-625-2204 (TTY 1-866-902-1141).

What is covered if you have a medical emergency?

You may get covered emergency medical care whenever you need it, anywhere in the United States or its territories. Our plan covers ambulance services in situations where getting to the emergency room in any other way could endanger your health.

Care Improvement Plus has limited coverage if you are outside the United States. In most cases, the plan will not pay for health care or supplies that you get outside the United States. There are three (3) situations when the plan will pay for certain types of health care services you get in a foreign hospital (a hospital outside the U.S.):

1. You are in the U.S. when a medical emergency occurs, and the foreign hospital is closer than the nearest U.S. hospital that can treat the illness or injury.
2. You are traveling through Canada without unreasonable delay by the most direct route between Alaska and another state when a medical emergency occurs, and the Canadian hospital is closer than the nearest U.S. hospital that can treat the illness or injury. The requirement of travelling through Canada “without unreasonable delay” is determined by the plan on a case-by-case basis.
3. You live in the U.S. and the foreign hospital is closer to your home than the nearest U.S. hospital that can treat your medical condition, regardless of whether it is an emergency.

Care Improvement Plus coverage criteria still apply to the services you get in a foreign hospital. Refer to your Evidence of Coverage for further information.

If you have an emergency, we will talk with the doctors who are giving you emergency care to help manage and follow up on your care. The doctors who are giving you emergency care will decide when your condition is stable and the medical emergency is over.

After the emergency is over you are entitled to follow-up care to be sure your condition continues to be stable. Your follow-up care will be covered by our plan. If your emergency

care is provided by out-of-network providers, we will try to arrange for network providers to take over your care as soon as your medical condition and the circumstances allow.

What if it wasn't a medical emergency?

Sometimes it can be hard to know if you have a medical emergency. For example, you might go in for emergency care – thinking that your health is in serious danger – and the doctor may say that it wasn't a medical emergency after all. If it turns out that it was not an emergency, as long as you reasonably thought your health was in serious danger, we will cover your care.

However, after the doctor has said that it was *not* an emergency the amount of cost-sharing that you pay will depend on whether you get the care from network providers or out-of-network providers. If you get the care from network providers, your share of the costs will usually be lower than if you get the care from out-of-network providers.

What is “urgently needed care”?

“Urgently needed care” is a non-emergency situation when you need medical care right away because of an illness, injury, or condition that you did not expect or anticipate, but your health is not in serious danger.

What if you are in the plan's service area when you have an urgent need for care?

In most situations, if you are in the plan's service area and you use an out-of-network provider, you will pay a higher share of the costs for your care. If the circumstances are unusual or extraordinary, and network providers are temporarily unavailable or inaccessible, our plan will allow you to get covered services from an out-of-network provider at the lower in-network cost-sharing amount.

What if you are outside the plan's service area when you have an urgent need for care?

Suppose that you are temporarily outside our plan's service area, but still in the United States. If you have an urgent need for care, you probably will not be able to find or get to one of the providers in our plan's network. In this situation (when you are outside the service area and cannot get care from a network provider), our plan will cover urgently needed care that you get from any provider at the lower in-network cost sharing amount.

What if you are billed directly for the full cost of your covered services?

You can ask the plan to pay our share of the cost of your covered services

In limited instances, you may be asked to pay the full cost of the service. Other times, you may find that you have paid more than you expected under the coverage rules of the plan. In either case, you will want our plan to pay our share of the costs by reimbursing you for payments you have already made.

There may also be times when you get a bill from a provider for the full cost of medical care you have received. In many cases, you should send this bill to us so that we can pay our share of the costs for your covered medical services.

If you have paid more than your share for covered services, or if you have received a bill for the full cost of covered medical services, go to Chapter 7 (*Asking the plan to pay its share of a bill you have received for medical services drugs*) of your Evidence of Coverage for information about what to do.

If services are not covered by our plan, you must pay the full cost

Care Improvement Plus covers all medical services that are medically necessary, are covered under Medicare, and are obtained consistent with plan rules. You are responsible for paying the full cost of services that aren't covered by our plan, either because they are not plan covered services, or plan rules were not followed.

If you have any questions about whether we will pay for any medical service or care that you are considering, you have the right to ask us whether we will cover it before you get it. If we say we will not cover your services, you have the right to appeal our decision not to cover your care.

Chapter 9 (*What to do if you have a problem or complaint*) of your Evidence of Coverage has more information about what to do if you want a coverage decision from us or want to appeal a decision we have already made. You may also call Member Services at the number on the front cover of this booklet to get more information about how to do this.

For covered services that have a benefit limitation, you pay the full cost of any services you get after you have used up your benefit for that type of covered service. You can call Member Services when you want to know how much of your benefit limit you have already used.

What is the service area for Care Improvement Plus?

The state and counties in our service area are listed below.

Iowa

How do you find Care Improvement Plus providers in your area?

Our Provider Directory is divided into eight (8) types of providers: primary care physicians, specialists, ancillary providers, hospitals, outpatient mental health providers, skilled nursing facilities, dental providers, and vision providers. Under each type of provider, providers are listed by state, county, by provider specialty, and then by provider name.

Providers that accept Medicare and Medicaid are noted with an (M) next to their name. Some non-plan hospitals deemed "essential" by CMS are noted with an asterisk (*).

We may frequently add or remove plan providers from our provider directory. If you have questions about Care Improvement Plus, please call our Member Service Department at 1-800-204-1002, 7 days-a week, from 8:00am to 8:00pm. TTY users should call 711. Or visit www.careimprovementplus.com.

Section 2 – List of Network Providers

Our Provider Directory is divided into ten (10) types of providers: primary care physicians, specialists, hospitals, ancillary providers, skilled nursing facilities, outpatient mental health providers, dental providers, and vision providers. Under each type of provider, providers are listed by state, county, by provider specialty, and then by provider name.

Providers that accept Medicare and Medicaid indicated with an (♥) next to their name. Some non-plan hospitals deemed “essential” by CMS are noted with an asterisk (*)
